

Converting Machinery Solutions Ltd. Rewinder

The CMS Rewinder has been in production for over fifty years. Over this time it has been designed to run various products from Wallpaper, Roofing Insulation, Under floor foam, and other products.

The machine has been recently modified to incorporate twin servo drives offering tension control, Electro-pneumatic winding head pressure, and recipe handling for ease of job changes. Machines can vary from single or twin web machines with widths from 500 – 1600mm

Capacity:

Speeds up to 20 cycles per minute Dependant on web

Roll size 50 to 200mm diameter

Technical Specification:

All webs up to 1600mm wide

Siemens controls

VPN Diagnostics

Options:

Integration of Label Inserter

Additional Slitting attachment for multiwebs

Additional Tape Applicator to close the roll
