

# Converting Machinery Solutions Ltd. Wallpaper Wrapper.

## Capacity:

Speeds up to 20 cycles per minute  
Roll diameter 50 to 200mm diameter  
Width from 500 – 1060mm

## Technical Specification:

All film types.  
3 phase supply 380 – 480v 50 / 60hz

## Options:

Integration of Label Feeder  
Additional Label printer  
Additional Shrink Tunnel

The CMS Wrapping machine has been in production for many years, it has recently been upgraded and now offers a higher cycle output, but still giving a smooth consistent performance.

The machine now incorporates:  
Variable speed film drives offering complete film tension control.  
New type sealing element giving a strong neat seal.  
Touch screen allowing recipe control for ease of job changes.  
Simple adjustment for different roll sizes.

Optional Label Feeder.
